

INVEST-HOTEL 2008

Hotels invest in equipment

The prestige of a hotel largely depends on the quality and design of its furnishings, mainly hotel furniture that adds to the unique style and cosiness of interiors. The latest sets of hotel furniture will be displayed during the Trade Fair of Equipment for Hotels INVEST-HOTEL 2008 held in Poznań on 16 – 18 October. Every year, exquisite displays of leading hotel furniture producers constitute a large part of the trade fair exposition and are appreciated by professional visitors – hotel owners, designers and all other professionals from the hotel sector. Such companies as KLER, SWARZĘDZ MEBLE, DREW-MARK and JANTOM are among companies that have already showcased their offers at the fair. INVEST-HOTEL is a place for business meetings, for establishing new contacts with business clients and an opportunity to expand the existing group of business partners and to set terms for future cooperation face to face. Well prepared exhibition areas, professional services and a rich programme of events for the Poznań-based trade fair of hotel equipment create an additional incentive for exhibitors to participate in this unique event. This is why you shouldn't wait to plan your visit to INVEST-HOTEL.
